

South Sound Gamma Knife is actively screening for novel coronavirus (COVID-19) per current public health guidelines. We are strictly following protocols to compassionately care for our patients while protecting against infectious illness.

To help keep patients, visitors and staff safe:

- Everyone entering our facility is required to wear a mask. If you do not have a mask, we will provide one to you at no charge.
- All patients will be screened by phone for symptoms of illness before coming in for their appointment.
- Everyone who enters our facility will be screened for symptoms of COVID-19. Anyone who has a fever or answers yes to any of the screening questions will be denied entry.
- One support person will be allowed per patient.

Thank you for your understanding and support.

Help prevent the spread of illness

- Wash your hands frequently and properly. If you can't wash your hands, use a hand sanitizer and wash your hands at the earliest opportunity.

- Wear a mask at all times in public.
- Practice physical distancing by staying six feet apart from others.
- Avoid touching your face, especially your mouth, eyes and nose.
- Carry tissues at all times and use them to cover your mouth and nose when you sneeze.
- Stay home when sick.
- If you are ill with milder symptoms like cough, low-grade fever, or other respiratory problems, contact your regular health care provider first. Do not go to the emergency room or urgent care unless symptoms are severe, such as high fever, shortness of breath or difficulty breathing.
